ORD IPRD Hybrid Computer Study 12 Nov 1970 DDS&T 3758-70
S.

Memo from CED to the DD/CS requested a determination of the need for DDS&T to provide hybrid computer facilities for the Agency, and if so to recommend a plan for providing the needed service.

Reply should be available for review by 18 Dec 1970.

Approved For Release 2004/05/05 : CIA-RDP85B00803R000200080075-3

ORD - OCS/APS liaison

ORD has an interest in computer communications and computer peripheral and hybrid gear. The APS, being interested also in state of the art hardware, has coordinated with ORD primarily in the assessment of the utility of various kinds of terminal devices and has utilized some ORD hybrid equipment for special, sensitive projects.

Guidance for Security Analysis, Test and Evaluation of
Resource-Sharing Computer Systems

~~XXXXXXXXXX~~ redraft being considered in OCS (19 Nov 1970 D/CS
memo criticizes the draft as too general in part and too
specific in others and requiring redrafting.)

His memo addressed to Alternate CIA Member

of the

Computer Security Subcommittee of
the USIB Security Committee
